

**Struggling to
read small text?**

ACUVUE®

Are you tired of stretching out your arm to read texts on your phone, squinting to make out small print, or juggling to take readers on and off – if you can find them?

We call that presbyopia. You call it annoying. But don't worry, it happens to everyone.

If this sounds like you, schedule your annual appointment today and see if ACUVUE® MULTIFOCAL contact lenses are right for you!

Important information for contact lens wearers: ACUVUE® Contact Lenses are available by prescription only for vision correction. An eye care professional will determine whether contact lenses are right for you. Although rare, serious eye problems can develop while wearing contact lenses. To help avoid these problems, follow the wear and replacement schedule and the lens care instructions provided by your eye doctor. Do not wear contact lenses if you have an eye infection, or experience eye discomfort, excessive tearing, vision changes, redness or other eye problems. If one of these conditions occurs, remove the lens and contact your eye doctor immediately. For more information on proper wear, care and safety, talk to your eye care professional and ask for a Patient Instruction Guide, call 1-800-843-2020, or download the [Patient Instruction Guide](#).
